

App. No. 10/605,000

### EX PARTE INTERVIEW

As discussed with the Examiner, Applicant requests an interview with the Examiner to discuss any potential questions or issues that the Examiner may have prior to the next Office Action.

### RCE filing

This Response is being filed with a Request for Continued Examination. The proper fee and form is attached.

### REMARKS - General

Also applicants have rewritten all claims to define the invention more particularly and distinctly so as to overcome the technical rejections and define the invention patentably over the prior art. The extraction algorithm, the substring scoring algorithm and the final name scoring algorithm have been more fully defined. This makes the claims unique and non-obvious since these algorithms as described or not in the quoted US Patents, Ravin (U.S. Patent No. 5,819,265) in view of Yuret (U.S. Patent No. 6,957,213) and makes the claims allowable.

### Conclusion

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

Respectfully submitted,
